NOTES

THE SMALL PRINT...

GUNSMITH FEES: Please note: some makes/models will cost more due to the level of intricacy involved for disassembly and reassembly. We will inform you of those costs prior to service if applicable.

ESTIMATED PROJECT TIME: *Firearms having to be serviced by the gunsmith will take longer than our estimated Cerakote time. We are at the mercy of the gunsmith's workload when items require his services.

LEAD TIMES: We do our best to honor the estimated project completion date. Due to the hand-done aspect of the industry, projects occasionally have to be re-done. Those delays, while rare, then impact the projects behind them. If this happens, we will do everything within our power to keep you informed.

STORAGE POLICY: Payment is expected when the project is completed. Any project that is not picked up within two weeks of its completion date will incur a \$5/day storage fee, unless prior arrangement or unforeseen circumstances arise. Any project that accrues storage fees exceeding the cost of the work completed will be considered abandoned and sold to pay the shop fee.

LIMITED THREE-YEAR WARRANTY: Branson Cerakote and Laser warrants that all Cerakote applications will be free from defects in materials and workmanship under normal use for a period of three (3) years from the date of service completion. What is covered: adhesion failure of the Cerakote coating. What is not covered: normal wear and tear from regular use, damage resulting from misuse, abuse, or negligence, scratches, chips, or damage from impacts or accidents, modifications or repairs performed by unauthorized parties, damage from improper cleaning or maintenance, any damage caused by activities beyond intended use

Branson Cerakote and Laser shall not be liable for any loss or damage of any kind, including incidental or consequential damages resulting, directly or indirectly, from any breach of warranty, express or implied, or any other failure of this product.
